A GUIDE FOR USING SAKKHO® TEAK TILES

Surface

1. How many timber tiles do I need per square meter? (4 Tiles = 0.81sqm or 4.94 Tiles = 1sqm)
2. Do I want to cut few tiles or combine them with a timber frame or border to fill the surface?
3. Do I need to purchase extra tiles for wastage or to be re-shaped to fit certain areas?

IInstallation

1. Is my project two dimensional or three dimensional?
2. Is my installation temporary or permanent? Do I need to pre-drill pilots holes?
3. Do I want to add a centre piece within the tile such as down lights or other?

Ttype

1. Do I choose a tile with a regular back or a reinforced back? (Do I reinforce them in some areas?)
2. Does my intended project require me to ensure the centre of each tile is supported?
3. Are the tiles for light to medium residential walking traffic or heavy pressure and heavy traffic?

EEnvironment

1. Are my tiles to be installed indoors or outdoors?
2. Do I want to let the teak untreated go gray outdoors or use teak oil, paint, finish or a sealant?
3. Do I want to use Sakkho recommended teak coating Lignol® Teak Guard Marine?
